DETAILED ACTION

Response to Amendment

1. The amendments and arguments/remarks filed on 29 June 2010 have been entered and fully considered.
2. Instant claims 1-2, 6, and 13-22 have been cancelled by Applicant's amendment.
3. Instant claims 3-5 and 7-12 are now dependent on allowable instant claim 23.
4. Instant claims 3-5, 7-12, and 23-24 are pending currently.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

Claims 3-5, 7-12, and 23-24 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record (Dickopf et al. and Elkind et al.) does not teach or fairly suggest instant claims 23-24 which recite an optical device having a chamber formed by two optical elements and a circumferential sidewall, and further having openings for feeding and discharging conduits of index-adapting liquids and/or gases that are configured as channels in one of the two optical elements. Similarly to the claimed invention of the instant application, U.S. Patent 5,763,191 (Knoll et al.) discloses a diagram of a measuring device that measures optical reflectivity in Fig. 1; it has a prisma 16 and flow cuvette 14, but does not join the components together with a circumferential side wall to form a singular chamber.

Art Unit: 1797

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
